STC CANADA WEST COAST

PRESENTS:

Learn to Write API Documentation

Need a REST from confusing code?

No →

```
REFRAIN =
"% bottles of beer on the wall,
% bottles of beer,
take one down, pass it around,
% bottles of beer on the wall!"

bottles_of_beer = 99
while bottles_of_beer > 1:
    print REFRAIN % (bottles_
    of_beer, bottles_of_beer,
    bottles_of_beer - 1)
    bottles_of_beer -= 1
```

Yes →

```
{
    "summary": "Write API doc",

    "description": "produce
    instructions about how to
    effectively use a software
    API"
}
```
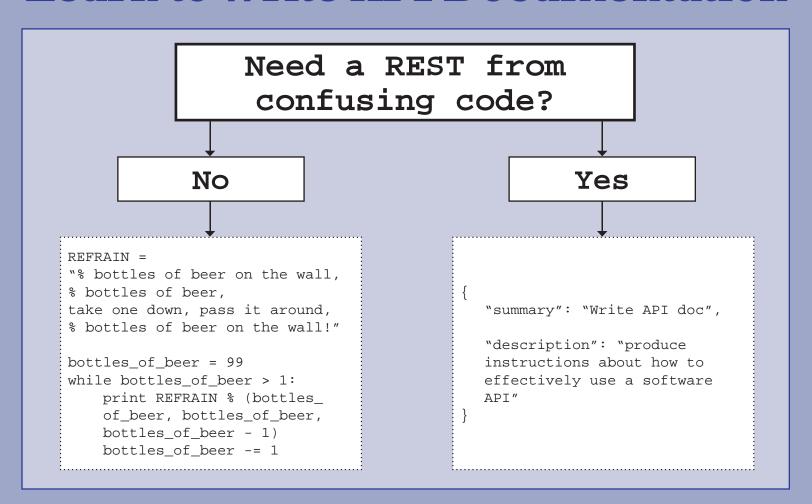

EVENT

Expert tech communicators Lois Patterson and Marc Bell present an interactive 2.5 hour seminar for writers documenting API

Highlights include:

- Introduction to APIs and API Technical Writing
- What is an API?
- What is a REST API?
- Requirements for effective API documentation
- Documentation technologies
- Code playgrounds
